EDUCATION

B.S. IN CYBERSECURITY ENGINEERING

AUG 2025 – MAY 2029
Florida Polytechnic University

HIGH SCHOOL DIPLOMA

AUG 2022 – MAY 2025
Hernando High School, Brooksville
Florida

KEY SKILLS

Cybersecurity
Penetration Testing
Problem Solving
Infrastructure
Linux & Windows

INTERESTS

Cybersecurity
Computers
Engineering
Rock Climbing / Bouldering
Jiu Jitsu
Weight Training

PROFILE

I'm a Cybersecurity Engineering student with a strong interest in building and securing efficient, reliable, and resilient systems. My experience includes hands-on technical work, competitive projects, and a deep curiosity about how things work and how they break.

EXPERIENCE

ENGINEERING INTERN • JUN 2024 – AUG 2025

Ancorp, Williston Florida

During my internship at Ancorp, I gained hands-on experience in drafting and modeling complex high-vacuum chambers, applying advanced CAD techniques to support precision engineering projects. I also took on a leadership role in the design of a custom chamber for a major national laboratory, working to balance technical requirements with practical manufacturability. This experience strengthened my skills in vacuum technology, collaborative design, and delivering solutions for high-level research applications.
